GUIDELINES FOR SUPPLYING ARTWORK

Accepted Formats (Mac or PC)

- EPS files
- Adobe Creative Cloud 2018 or lower (i.e. AI/PSD/INDD)
- PDF Files (preferred) with images and fonts embedded or text outlined
- TIF format - minimum 300 d.p.i.
- 4 colour process jobs must be CMYK (RGB files will be converted to CMYK, which will result in color shifts.)

Unacceptable Formats

- JPG, GIF or any files from the internet
- CorelDRAW or Quark
- Microsoft Word, Excel or PowerPoint
- BMP or PCX
- RGB colours

Colour Variance

- Due to circumstances beyond our control, we cannot guarantee exact colour matches. This holds true for the same design on multiple products and on repeat orders.

Process Colours

- For process printing, artwork that is prepared as 4 colour process should not contain spot colours. Ensure all colours are converted to CMYK. All spot colors will be converted to the closest 4 colour process match. Unfortunately, a perfect match cannot be guaranteed.

Spot Colours

- For spot colour printing use Pantone colours only — Do not use process colours. Make sure that the colour information, such as pantone numbers, is clearly marked in the file or hard copy.

Creating, Saving & Sending Files

- Artwork templates and guidelines are available on our web site at www.jay-line.com.
- Do not save artwork at a lower resolution to create a smaller file. Once a file is saved in a low resolution we cannot do anything to change the artwork to a higher resolution. Low resolution files will result in choppy type and fuzzy pictures. Please include all support files used in your artwork, i.e. all images and fonts. Send only the files we need. Do not send any other art files.
- Artwork may be e-mailed directly to us or uploaded to our website. Contact our office for details. For email, send your artwork as an attachment. Make sure your company name and phone number are in the body of the e-mail letter. Art charges may apply to recreate artwork to make it suitable for output.

Trademarks, Copyrights and Registration Marks

- Jay-Line bears no responsibility for legal infringements. We assume that the customer has permission to use all designs to be reproduced on Jay-Line products.

Font Information

- All text should be converted to paths, curves or outlines. This is the recommended method. The text will become an object and can no longer be edited. If you need to send the fonts along with your artwork, make sure that you submit all of them in a ZIP file.
